Work experience

- 2015 - 2016 **IMEC Interuniversity Microelectronics Center: technical support during and recording of presentations**
AVEVE Gardencenter Leuven
- 2014 **Repowermap - renewable energies and energy efficiency**
Initiative supported by the European Commission. My tasks: development of this initiative in Flanders/Belgium. Contact with NGOs, local governments, installers, producers. Issuing press release and translation of publications and website.

Goal : inspiring people to understand the benefits / make use of renewable energies and energy efficiency by joining forces, by making real-world examples in their own neighbourhood visible and related local information easily accessible . To this objective, an interactive map is developed jointly by a large network of organizations, institutions, regional and local authorities, other energy actors and environmental organizations.
